He said that three amendments to the covenant had been submitted but added he was "sure there would be no difficulty in meeting all legitimate objections."

Discussing the Monroe Doctrine he said: "The Monroe Doctrine is strengthened by the league of nations because international action will be carried out by the organs of the league. The United States will be represented on each body and since these bodies are international no action can be taken without consent of all."

## MUCH FEELING IS MANIFESTED AGAINST YANKS

Propaganda at Work in Russia Creating Sentiment Adverse to Americans

Distortions Widely Copied and Propaganda is Well Defined

(By Associated Press)

Vladivostok, March 17.—Never since the landing here of troops in August has there been such widespread criticism of the United States.

The newspapers are full of tirades and ingenious distortions of facts calculated to sow discord among Americans, Russians and America's allies. It is an unquestioned fact that there is a systematic campaign. Some newspapers it appears, have been subsidized and are distinctly hostile to the United States.

The Russians, never overconfident regarding the intentions of the Americans, have been ready listeners and the legitimate Russian press reprints and editorializes on the fabrications that have been put in circulation.

Beginning with disappointment over the passiveness of America's intervention the sentiment developed mistrust and an outspoken hostility.

## GERMANY TO GET BETTER CONDITIONS MILITARILY

Demands of American Delegates that Military Terms be Made Less Severe Prevail

Control of Germany's Armament for Indefinite Period Changed to Specified Time

Means American Troops Get Home Quicker

(By Associated Press)

Paris, March 19.—The military terms of the treaty of peace have been amended by elimination of the clause providing for control of Germany's armament for an indefinite period.

Admiral Benson of the United States navy pointed out that the original terms committed the United States to a virtually indefinite occupation of Germany and it was chiefly on his insistence that the terms were modified.

American delegates also pointed out that control of any part of Germany would delay the return home of American troops and would amount to annulling the sovereignty of Germany.

As amended the terms provide for control through the time fixed for the delivery of materials of war, guns and ships, and not through the period during which war damages will be paid by Germany.

## BREWING CO. FILES SUIT ASKING FOR INJUNCTION

Would Prohibit Collector and District Attorney from Interfering With Brewing

Complaint Based On Counsel's Claim of 2 3-4 Percent Beer Being Non-intoxicating

If Sustained Would Protect Brewers Under Present Restrictions

(By Associated Press)

New York, March 19.—The Jacob Hoffman Brewing Co., bringing a test suit in the interest of the United States Brewers' Association, today applied to the Federal District Court for an injunction restraining the collector of internal revenues and United States District Attorney from bringing any proceedings to interfere with its contemplated production of beer of 2 3-4 percent alcoholic content.

The complaint, it is said, is based on the opinion of counsel that beer of the strength indicated, which brewers assert was not intoxicating, could be legally manufactured and distributed under the presidential proclamation issued by authority of the food conservation laws prohibiting the use of grains in the brewing of intoxicating beverages.

A legal classification of 2 3-4 percent beer as non-intoxicating, sustained by the United States supreme court, brewers here pointed out, would assure the future of the industry under the present food conservation laws, the wartime prohibition act and the federal prohibition amendment.

# BODY OF VICTIM OF TRAGEDY WILL BE BURIED HERE

Terrible Result of Disordered Mind Comes Like Lightning Bolt From a Clear Sky.

Relatives Had Noticed Evidence of Nervous Ailment Some Time Ago.

The entire community shares deeply in the tragedy which has so terribly darkened the home of Mr. and Mrs. W. P. Barnes, and the deepest sympathy goes out to them. Aside from the great grief caused by the mental condition of their son and his desperate act, there is the sorrow over the loss of a daughter-in-law whom they loved as their own daughter and the hopeless ending of the happy home life in Hillsboro.

Only last week Homer had visited his parents, coming over from Hillsboro without his wife, a circumstance which seemed strange to the parents as she had always accompanied him on former visits. He was quite unlike himself and distraught throughout his stay, the parents feeling so much anxiety concerning his condition that they phoned to Hillsboro after his return Saturday urging that he and his wife come to their home and that Homer, who had not long been out after an attack of the influenza, take medical treatment. The heavy rain prevented their coming, but Mrs. Barnes phoned that they would be here this week.

A bright young woman, sweet and charming in her personality, Charlotte Willard Barnes since her removal from Washington had retained the interest of the many friends of her girlhood residence in this city to an unusual degree and her tragic death causes unusual distress to them as well as to a large family connection.

Her mother was a Coffman, a twin sister of Mrs. R. W. Marchant, of Milledgeville. After her death for some time Charlotte, then quite a young girl, resided at the home of her uncle, the late L. C. Coffman, and to these relatives seemed particularly close.

Two sisters survive, Mrs. Ben Barrere, of Wilmington, and Mrs. Urban Hidy of the Prairie pike. Mrs. Barrere went to Hillsboro late Tuesday afternoon.

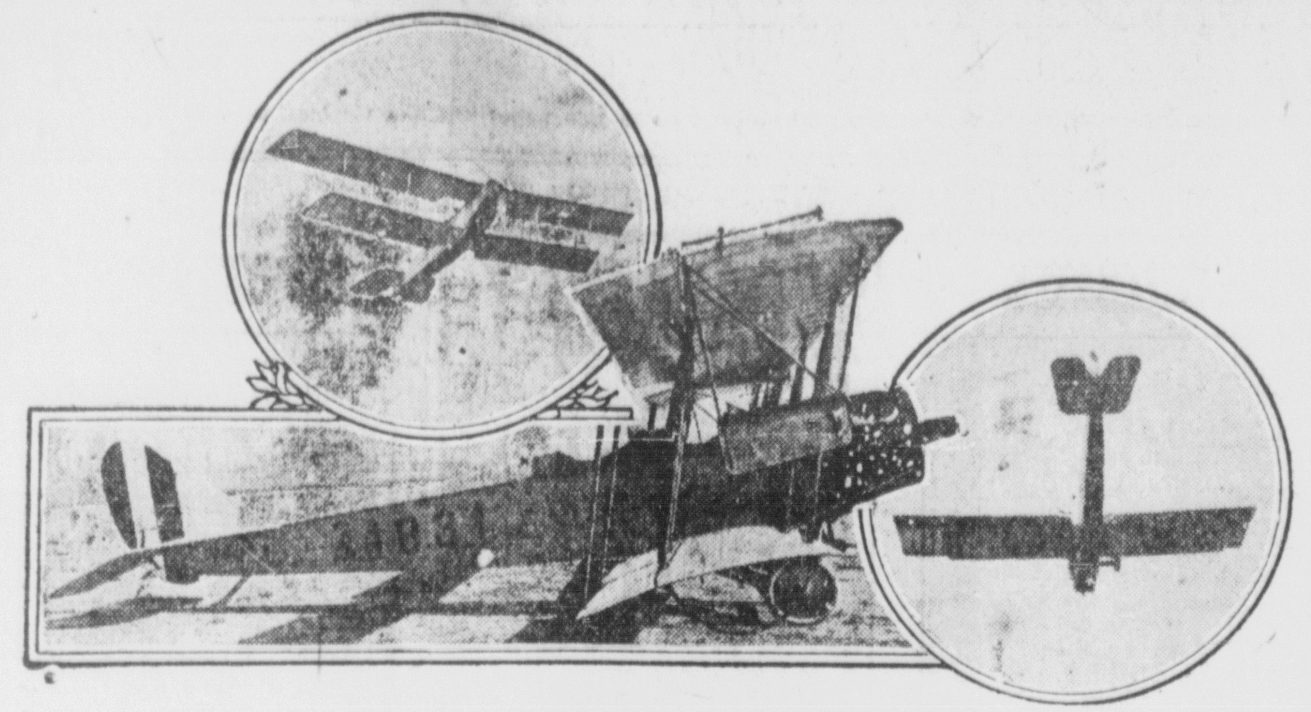

Dr. Robert Barnes, younger son of Mr. and Mrs. W. P. Barnes, and wife reached this city as soon as possible after learning of the tragedy.

Accompanied by Undertaker McCoy, H. C. Anthony and W. H. Brown, Dr. Barnes went over to Hillsboro Tuesday night to bring the body of Mrs. Barnes to the home in this city. They reached here about two o'clock Wednesday morning.

Funeral arrangements will be made later.

Dr. Barnes, upon visiting his brother, in confinement at Hillsboro, found him entirely unbalanced and his condition distressing.

# WAR SAVINGS STAMP AIR PLANE COMING HERE FRIDAY

On Friday of this week, weather permitting, Washington and Fayette county citizens will witness the greatest airplane stunts ever put on over this city, when one of the foremost expert flyers in America, Lieut. B. O. Tyler, of Somerville, Mass., and stationed at the Wilbur Wright field, is scheduled to appear here for a series of stunts to arouse the citizens to the need of buying War Savings Stamps.

Lieutenant Tyler has instructed many of the noted American airmen, and at present is the officer in charge of the Wilbur Wright Field.

He will arrive over Washington C. H. about three o'clock Friday afternoon and will go up to 5000 to 6000 feet and perform all of the stunts known to birdmen, among which are a series of consecutive loops, Immelman turns, barrel rolls, treacherous tail spins, nose dives, zooms, figure eights, vertical reverses, spiral, bumble bee twists, wing overs and falling leaf.

It is announced that souvenirs will be dropped by Lieut. Tyler while high above the city.

His plane is a Curtis "H", with Hispano motor developing 300 horsepower. He will make a landing here.

The trip of the W. S. S. airplane over Ohio is being made to arouse the people of the state to the importance of a continuing purchase of War Savings Stamps. The government's present demands for funds are as heavy as at any time during actual hostilities. War bills must be met; troops abroad must be maintained; the soldiers and sailors must be brought home; those who have fought for liberty must be restored to social and industrial usefulness; the helpless, maimed, sick and wounded must be cared for and the full duty of this country must be discharged to the dependents of the soldiers killed in action.

# WILD THREAT IS MADE BY SOLON FROM WISCONSIN

Lenroot Declares United States in a "Critical Situation" and Congress May Take Action

(By Associated Press)  
Washington, March 19. — President Wilson does not negotiate a peace treaty satisfactory to the senate Senator Lenroot of Wisconsin, Republican, said in an address on the league of nations before the Washington Commercial Club last night. Congress may pass a joint resolution summarily ending the war with Germany without a treaty, leaving American participation in the league of nations to future determination.

Senator Lenroot declared he favored the general plan of the league as proposed, but would not be coerced into voting for the constitution as now drawn without amendment.

Asserting that the United States today is in "a most critical situation," with American principles and ideals endangered by the plans for the league, Senator Lenroot continued:

"We are told the president will not permit peace with Germany unless there is made as part of the peace treaty the constitution of the league as drawn in large part by Great Britain. We are told that this will be done to force the senate to accept, without amendment, this British constitution, revolutionizing our government and its foreign and domestic policies. In other words the senate is to be coerced to do something which it otherwise would not do and public opinion in America is thus to be coerced into demanding ratification.

"In my judgment President Wilson has once more misjudged the temper of the American people and the senate. I will not be coerced into voting for the constitution of the league and I am sure the senate will not be. The proposed constitution will be considered upon its merits, regardless of whether it is coupled with the peace treaty or not. If the constitution should not be amended to protect and safeguard the interests of the United States the senate will propose such amendments as it may deem necessary."

Senator Lenroot said "the supposed club over the senate of postponing peace is stuffed with straw," adding:

"It does not seem to have occurred to the president that if he is not willing to negotiate a treaty of peace satisfactory to the American people, Congress may itself, and undoubtedly will pass a joint resolution declaring the war with Germany terminated. The constitution clothes Congress with the power of declaring war, and the body that is given this power unquestionably has the power to terminate the war.

"Germany is whipped. We are asking for no annexation, no indemnities. We have accomplished the purpose we had when we declared war, and while it would be desirable to have a formal treaty of peace with Germany it is not necessary."

# HOMER BRYANT IS OUT OF PRISON

Homer Bryant, colored, former resident of this city, who was lodged in the county jail at Hillsboro on suspicion of knowing something of the murder of John Moses, Syrian merchant, in Hillsboro, last week, has been released, the officers failing to obtain evidence that would warrant them holding him longer.

The officers have turned their attention in another direction with a view to definitely solving the mystery in the near future.

The police believe the crime was committed a week ago Sunday morning between 9:00 and 10:30 o'clock. Footprints of the murderer were carefully measured by the sleuths.

# MONROE DOCTRINE IS BACKED UP BY WORLD LEAGUE

Lord Robert Cecil Says He Sees No Objection to Monroe Doctrine, But No Nation Must be Privileged

Paris, March 19.—(By Associated Press)—Lord Robert Cecil, after a conference with Premier Lloyd George declared last night in behalf of the British delegation that the league of nations covenant, in the opinion of the delegation, should be incorporated in the preliminary peace treaty.

"If the Monroe doctrine means as I believe it does, that there ought to be no interference with affairs on the American continent by European powers, without the consent of the United States, the doctrine is strengthened by the league of nations," Lord Robert says.

Lord Robert's statement was in answer to a query if the Monroe doctrine might be reaffirmed in the covenant. He said that much had been said about the Monroe doctrine, but declared that he doubted if it was wise to put any one power in a special position in the league.

Asked if the covenant might provide for race equality, Lord Robert said that this could not be done without interfering with the internal affairs of various nations, which would violate the principles of the league.

Regarding the voluntary withdrawal of any nation from the league, Lord Robert pointed out that there was much to be said on both sides of the question.

Announcement was made at the close of a conference today between President Wilson, David Lloyd George the British prime minister, and M. Clemenceau, the French premier, that no final decisions had been taken, but all main questions surrounding the peace conference had been discussed that the meeting had been entirely satisfactory and that there had been no change in the main plans previously announced, which contemplate the completion of the peace treaty within the next two weeks, including the league of nations.

# MUST PAY WAR DEBT 400 YEARS

San Francisco, March 19.—"The cost of the war in money alone was \$197,000,000,000, or \$11,000,000,000 more than the total property value of all of North America," Secretary of War Newton D. Baker told a gathering at the Commercial Club here Tuesday following his arrival with General Peyton C. March, chief of staff, to inspect army posts.

"The deaths from wounds in battle numbered 7,300,000 and the total deaths in all the armies reached 9,000,000," he said.

Referring to the proposed league of nations Secretary Baker said:

"Unless such an organization was formed under some name and under some constitution anarchy bred by disease, hunger and despair would overwhelm the earth.

"No child born in a civilized nation in the next 100 years will escape paying a considerable portion of the debt this war has brought about."

## The Waterways

There is a great deal of encouragement to be found in the reported activities and proposals of the federal, state and many local commissions and committees, regarding the creation of water transportation facilities, throughout the country on quite a pretentious scale.

Right now Ohio people, in this section, have their attention directed to the proposal to construct a deep water canal from the lakes to the river and the improvement, by locks and dams of the Ohio river so as to assure navigation at all seasons of the year, barring, possibly, the mid-winter months.

The endeavor to remove a considerable burden from the railroad lines is beginning to assume a definite form, indicative of a determination to push on until the results are really appreciable.

The traction lines and the automobiles have taken a considerable, if not the greater part, of local passenger and light parcel traffic from the railroads. The big trucks have been, during the war and the pre-war periods, transporting a tremendous quantity of heavy freight and the truck traffic seems to be increasing rather than decreasing since the armistice was signed. Many big automobile firms are rapidly switching their plants to truck manufacturing. The drive for more and better roadways is a part of the same movement and an indication of the trend.

With the construction of big canals connecting the natural waterways and with the latter improved the tremendous coal, ore and iron traffic could almost wholly be shifted from the steam railroads.

Men now living who remember the days of romance which attached to the old canals, with their aqueducts, towpaths, basins and locks, the "luxurious" passenger boats and the patient plodding mules may live to see the canals come back again into public favor and serve a purpose in the commerce of the land. But the old days of romance have gone forever.

Along the towpath will be constructed a track of ties and steel rails and over that track the fussy little electric mule will pull the boats and barges. The old mule of flesh and blood patiently plodding through the brush that lined the bank, as well as the bare-legged boy who sat astride his back, are destined to remain but memories.

The canals, in their days, served a purpose in developing the country. The towpath has started many a lad on his career in life which ended in the congress of the nation and once, at least, in the presidential chair.

We can't of course hope for those days to come again but there is a bright prospect that the canals will again become great highways of traffic, as great or greater perhaps, relatively, than they were in that other day when the pilot gave the "low bridge" warning.

## May Recall Autocracy

Many correspondents "at the front" see convincing evidence in Germany of a strong current of public opinion favoring the return of the militarists to power. So convincing are the recent developments, in that regard, that some of the correspondents are, unhesitatingly, predicting a return of the autocrats to power, in the very near future.

That development has not been unexpected by close observers who have seen, from the beginning of the internal troubles in Germany, great difficulty if not impossibility in the way of the establishment of a free government—a real democracy—among the German people.

There has been grave danger that the German people, released suddenly from the lords of autocracy and cast upon their own resources, recognized as a people almost wholly devoid of initiative, would fall into a condition of anarchy almost, if not quite, equalling in its attendant terrors that which has prostrated the Russian people.

## Storm Signals

Warning signals have been sent out by the prohibition leaders that there is grave danger, in fact more than a possibility, that the coming "dry day" ushering in national prohibition may inaugurate just the reverse condition.

The failure of Congress, in its desire to insult and hamper the President, to pass the necessary enforcing laws and the failure, thus far, of the Ohio general assembly to enact the recommended measures to make effective the prohibition order by providing punishment for violators, will, it is feared, result only in an official declaration that the traffic in intoxicating liquors shall be prohibited without providing any machinery to enforce the order.

All such existing laws will become inoperative at that time and dealers, all restriction and liability to punishment removed, will be free to sell or give away or furnish any old way and any old place.

Law has many sharp short turns and blind alleys, but we can't believe it is quite that bad. Any way though, the state assembly need not take a chance on the law's technicalities. It had better get busy and stop all argument. Remove any chance.

## POEM FOR TODAY

### THE PEACE OF THE WORLD

Strange in the ears of dying boys,  
who thought  
They died to make the world securely  
Hers  
The footsteps of whose nearing messengers  
Are beautiful upon the mountains;  
naught  
Could sound so strange and sad as  
this wild tide  
Of jealousy and selfishness and hate  
And envy—this parochial debate,  
Held by old men, who dare condemn  
untried  
The hope of the world, for which  
boys went to death  
Gladly. By Heaven, and if it were in  
truth  
Only an eager mistle dream of  
youth—  
As it is not—then we who still draw  
breath  
In this harsh world—these old men,  
I and you—  
Should be the more resolved to bring  
it true.

—New York Times.

### SOMETHING IN YOUR ROAD?

Is there something in your road—something that is keeping you from going where you want to go? If there is, grab that stick of determination and knock 'em aside. You will then find they are not nearly as big as they look and easily overcome. Is it lack of study? You can learn anything you want to learn in this country for nothing. Is your obstacle wasted time? Get busy in the right way and you'll soon overcome that. But you can't by hanging around street corners, cabarets and pool parlors. Is it carelessness? Make up your mind that you will do everything you have to do the best you know how. Take another look at the above picture, grab that stick and start swinging.

## News of Interest to Women

A marriage just announced that is evoking much interest in the Center neighborhood is that of Miss Lelia Grace Archart, of Jasper township, and Mr. Marion DeVoe of Paintersville, Ohio. The ceremony was performed at New Port, Ky., on last Saturday.

The young couple, both of whom are under age, had announced their intentions of attending the High School Basketball Tournament at Cedarville Saturday, so it was a complete surprise to their families, when they visited Kentucky and had the knot tied instead. However they returned to Cedarville in time to attend the tournament in the evening.

The bride, who is the only daughter of Mr. and Mrs. A. W. Archart, is a very attractive girl and was a Junior in the Bowersville High School.

The groom, youngest son of Mr. and Mrs. John DeVoe, of Paintersville, only a short time ago graduated from the Paintersville High School, and since that time has been engaged in farming with his father.

After the first of April the young couple will be at home to their many friends who are extending best wishes on the DeVoe farm, which the groom will operate.

The Woman's Roosevelt Memorial association, organized in January immediately after the death of Colonel Roosevelt, has just announced the form of the permanent memorial which the women of America will erect to the memory of the great leader.

The association is to acquire Colonel Roosevelt's birthplace at 28 East Twentieth street, and the adjoining property at 26 East Twentieth street, New York city. The place of his birth is to be restored and the interior reproduced. And the whole "Roosevelt House," with its assembly halls is to be not merely a museum; it is to be, more than this, a center of citizenship activities, a living thing, a place where the boys and the girls of America—and the men and women as well—will come together in citizenship activities, in order that their understanding of America may become deeper and keener, and in order that the great ideal of practical service to our country, of indefatigable activity in

its behalf, shall stir and move with vivid power all Americans that frequent or visit "Roosevelt House."

No contribution is too small. The association wishes this to be an all-American tribute. The names of all who give one dollar or more are to be inscribed in a book of donors to be placed in the memorial. Every contributor will receive as a receipt, the emblem of the association, which is to be a small bronze pin bearing one of the colonel's best likenesses.

Tuesday evening the Baptist Young Peoples Society held their monthly meeting at the home of Miss Mabel Briggs on East Temple street.

Twenty-seven members and eight visitors were present.

After the usual business session, a variety of delightful games were enjoyed and dainty refreshments were served by Miss Briggs, assisted by Miss Elva Belles and Mr. Thomas Willis.

The Pythian Sisters, who are working on comforts for Devastated France, Tuesday afternoons are progressing nicely with their work and at the same time enjoying the social side.

Following their custom for some time the husbands were invited in for supper and at the close of a busy afternoon a committee composed of Mesdames John Wilson, Glenn Speaks and P. R. Armbrust served a delicious fried chicken supper, after which visiting was enjoyed until the opening of the lodge session. There were twenty present.

Christmas day 1921 will be the one hundred anniversary of the birth of Miss Clara Barton, founder of the American Red Cross, at Oxford, Mass., and a national memorial is being proposed.

Senator Lodge, from Miss Barton's native state, has been asked to introduce a bill providing for the erection in the hall of fame in the Capitol at Washington a memorial or statue in her memory.

To get an American husband seems to be the aim of more than 40 per cent of the Parisian young women. At all events, that is the result of an inquiry conducted by L'Oeuvre, a Paris daily newspaper, which publishes a series of letters

setting forth the reasons that have guided the writers to give preference to Americans over their compatriots.

Those who would rather be married to Frenchmen base their predilection largely on patriotic grounds, but a large percentage of young French women confess to a whole-hearted admiration of the average American's breezy good humor and courtesy of manner toward the other sex. Several French girls who have had an opportunity to observe American home life appreciate the easy camaraderie between the sexes, and they come to the conclusion that a good comrade must make a good husband.

Some fair writers say that French Romeos are given to talking overmuch and are too fussy about their personal appearance. The question as to whether a man ought to shave or not seems to agitate the French feminine mind considerably, and the voting is about equal between the smooth shaven American and his French brother with a mustache.

One girl raises the curious objection that "Americans eat too much," while another disapproves of "the heavily framed American spectacles with the huge round lenses which so many Americans affect."—Cleveland Herald.

Mr. Harley Haggard, son, Earl Eugene, and mother, Mrs. Frank Haggard left Wednesday for Carthage, N. D., where they expect to make their future home with Mrs. Claude Wilson, Mrs. Haggard's daughter. Word came over the wires Wednesday morning to Dr. C. V. Lanum of the safe arrival in New York from overseas of his son Robert, for two years in service with 392 Tank Corps, and his son-in-law Frank C. Reed, son of Mr. and Mrs. J. L. ## STUTSON STORE MAKING CHANGES

For the past two or three weeks extensive changes have been under way at the Stutson Department Store, with the result that not only has its attractiveness been greatly enhanced by redecorating, but its facilities for conveniences have been improved by narrowing the center counters and giving considerable additional space in the aisles, so that two persons may now pass with ease on either side of the center counters.

The entire interior has received a coat of white enamel paint so that the lighting is very much improved, and this, with the change in counters, has given the big store a genuine metropolitan air.

## INFANT DAUGHTER IS LAID TO REST

A simple little service was held by Rev. Laughlin of the M. E. Church of Bloomingburg, at the home of Mr. and Mrs. Allen West at two o'clock Tuesday afternoon over all that mortal of the baby daughter, Clara Belle.

A number of friends gathered with the family around the tiny white casket, covered with flowers, suggesting in their sweetness and spring beauty the baby life so soon ended. Rev. Arthur P. Cherrington of Grace M. E. Church, made the opening prayer and Miss Jessie Leavell sang tenderly the hymns "Face to Face," "Jesus Savior Pilot Me" and "Sleep My Little One." The burial was made at the Madison Mills cemetery.

## CONCERT PLEASURES

A good crowd was in attendance at Memorial Hall for the concert given by Blind Boone, assisted by Mme. Marguerite Day, Tuesday night and every one was delighted with the remarkable pianist and the singer, who has a high and powerful soprano.

"Blind Boone" is one of those natural geniuses, who has had a successful concert career this being his thirty-ninth season before the public.

The program well arranged, included both classical and popular selections.

The play was a splendid war drama a picturization of the thrilling novel "Adele," with Kitty Gordon playing the role of the Red Cross nurse wonderfully. The star proved herself a genuine artist and the play provided a mastery vehicle.

Mr. Newland's singing was also a big attraction. The house was packed for both shows.

## SALE OF SAVINGS STAMPS BOOMING AMONG SCHOOLS

Total Sales to Date Are \$8,550 and Rivalry is Increasing to See Who Can Lead in Sales

First Place in Village Schools Goes to Good Hope This Time

Many changes are shown in this week's report of the sale of War Savings Stamps. In the Village schools Jeffersonville loses first place to Good Hope. Big gains are made by the three leading consolidated schools but no change was made in the standing. Among the rural schools Setbern and Madison Mills come from the bottom to almost the top. Others make good gains which shows what a little effort will do. The people are ready to buy. Fayette County's total sales are now \$8550.00.

The "No Sales Class" is rapidly diminishing in size.

## WEEKLY SERVICES AT ST. ANDREWS

Following up the special Lenten Mission services held at St. Andrew's Church last week, services will be held each Wednesday night during the rest of Lent until Holy Week at 7:30 o'clock which will be in the nature of a continuation of the Mission.

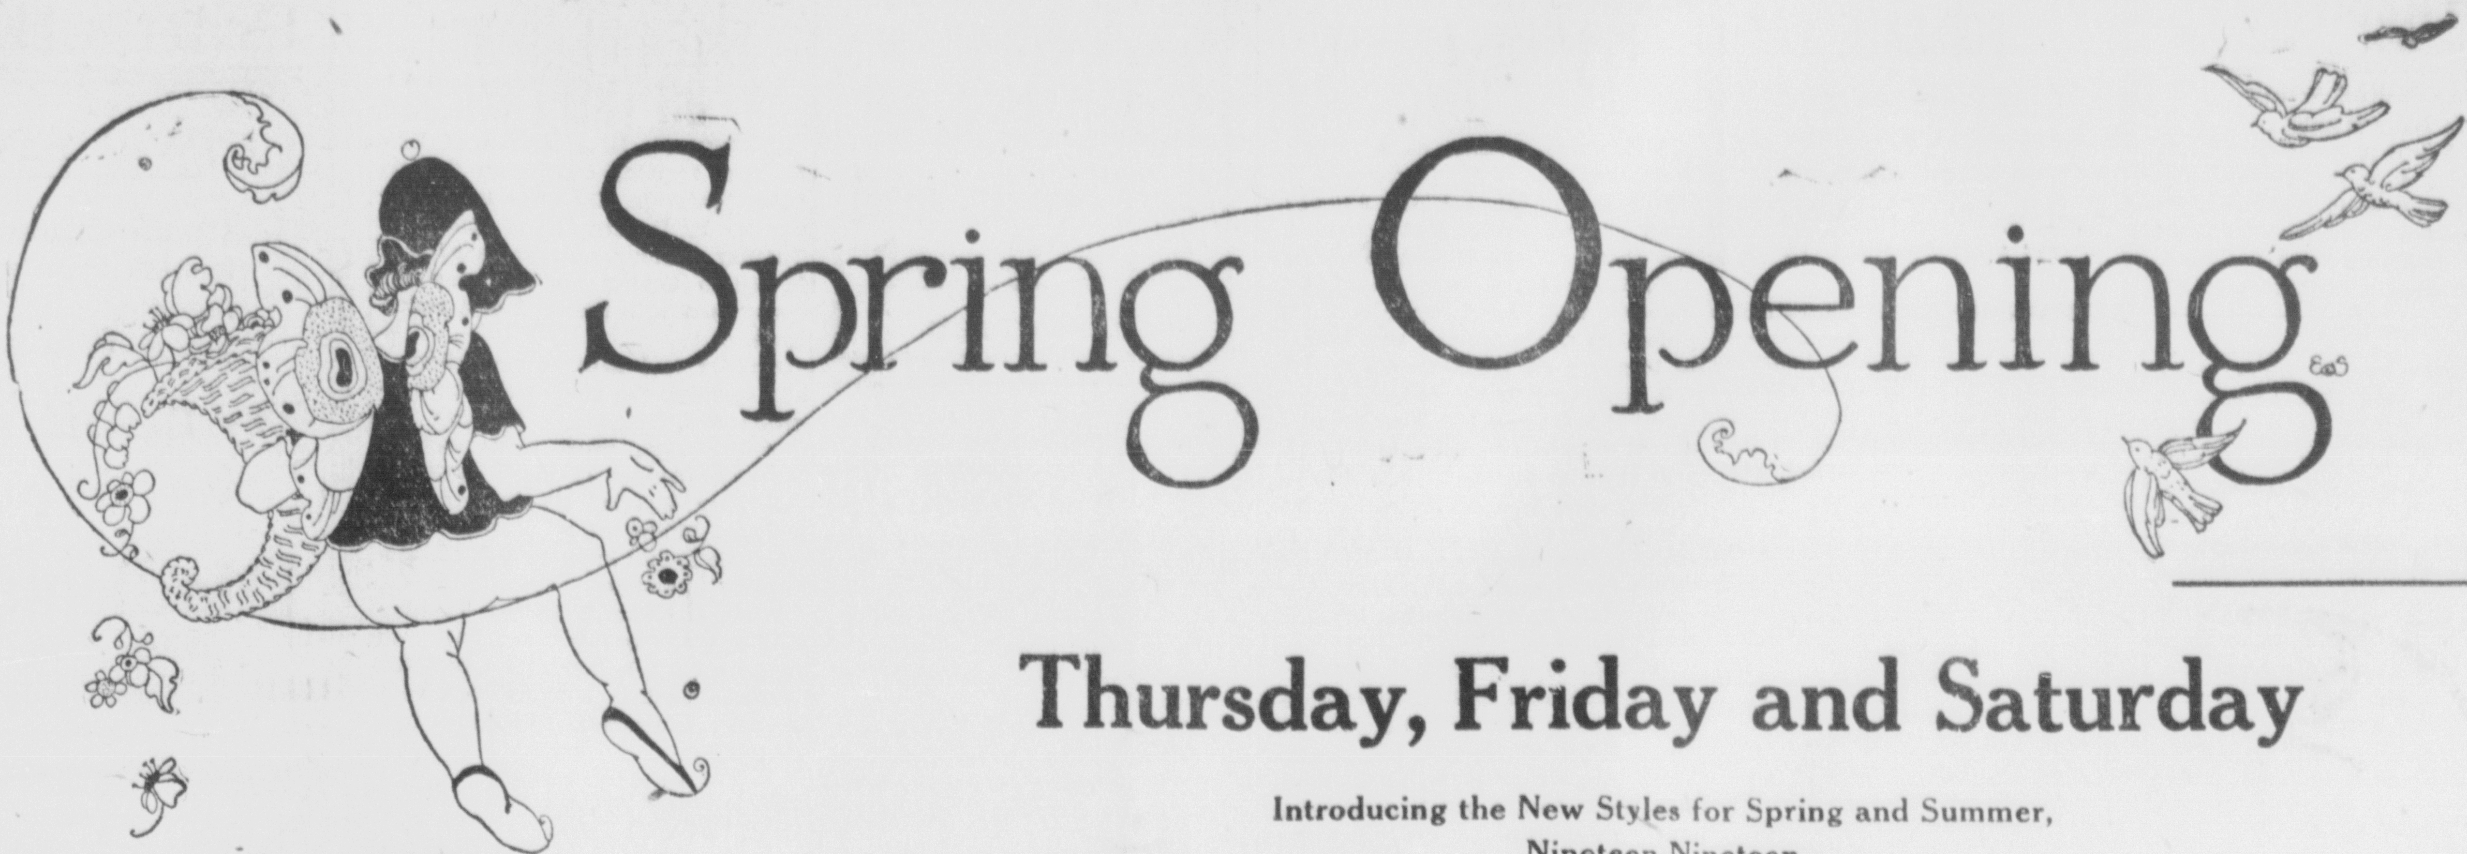

At these services Evening Prayer will be said and a short address will be given by the Rector or a visiting clergyman. The addresses will have to do with the relation of the development of life as interpreted by the life and teaching of Jesus Christ.

"The war is over, but not won until the spiritual values released and expressed by those who have fought and died have been transmitted and incorporated into the lives of the American people."

At these Wednesday night services a serious effort will be made to give expression to those values in such a way that men and women may gain a first-hand grip upon them and that these eternal truths may be translated into conduct.

The subject of the rector's address tonight will be, "What Do Episcopal Churchmen Really Believe?" A cordial invitation is extended to all who may desire to attend.

"Quiet Hour" services will be held on Thursdays and Fridays at four o'clock until Holy Week, with the exception of this Thursday. At these services the rector is giving a series of Meditations on "Personal Religion," based upon the teaching of the Sermon on the Mount.

Introducing the New Styles for Spring and Summer,  
Nineteen-Nineteen

### Suits, Coats, Waists, Dresses, Skirts and Millinery

Wonderful Creations Sparkling with All the Witchery and Imagery of the  
Foremost Parisian and American Courturiers Make their Formal Debut

ONCE again Dame Fashion has waved her Magic Wand, and from out of the innermost recesses of that mysterious place we call the imagination she summoned the conception for the slender line and supple forms she has enveloped the creations which we now ask you to view.

Creations more charming, more enrapturing, more lovely, we have never had the pleasure of presenting you for selection in any previous Spring Showing. To see them is to admire them, desire them, to own them. That's all we can say. That's the way we feel about them and that's the way we think that anyone else will feel who is fortunate enough to feast her eyes upon the slender lines and the ingenious miracles of miniature style treatments they introduce along their long and graceful sweep.

Original Paris models, their flattering duplications, and various collections of magnificent American originations constitute the long avenues of models which we offer for your inspection and selection. Moreover, they are all placed where they can be very easily seen and examined at your leisure.

Our Doors Will Be Open at Eight  
and Will Close at Five-Thirty

### The New Spring Suits

Suits this season will be long and narrow and closely reefed, conspicuously minus of all unnecessary frills and furbelows. Those made of serge, tricotine, poiret, twill, gabardine and similar wool fabrics seem to out-distance all others in the portraying of this new silhouette and are now on display here in numbers of stunning models. An early inspection of them is cordially requested.

### The New Spring Coats

Coats of the Cape and Dolman type developed on slender, straight lines seem to be the most favored for Spring wear. Of these, the models with loose flowing lines, straight flaring backs and belted in front sections, are to all extents receiving the greatest amount of attention. Silks and satins, heavy crepes and novelty weaves in silk, vary the range of the varieties on exhibition.

### The New Spring Millinery

The small hat is the call of the Spring season. Curious breaks and points and angles in all manner of odd developments give the new shapes marked individuality over those of the past season. Many of them are trimmed with large bows which reflect the influence of the Alsace-Lorraine head-dress, while others skillfully portray numerous modifications of the modern aeroplane wing. Be sure to come in and look them over.

### The New Spring Blouses

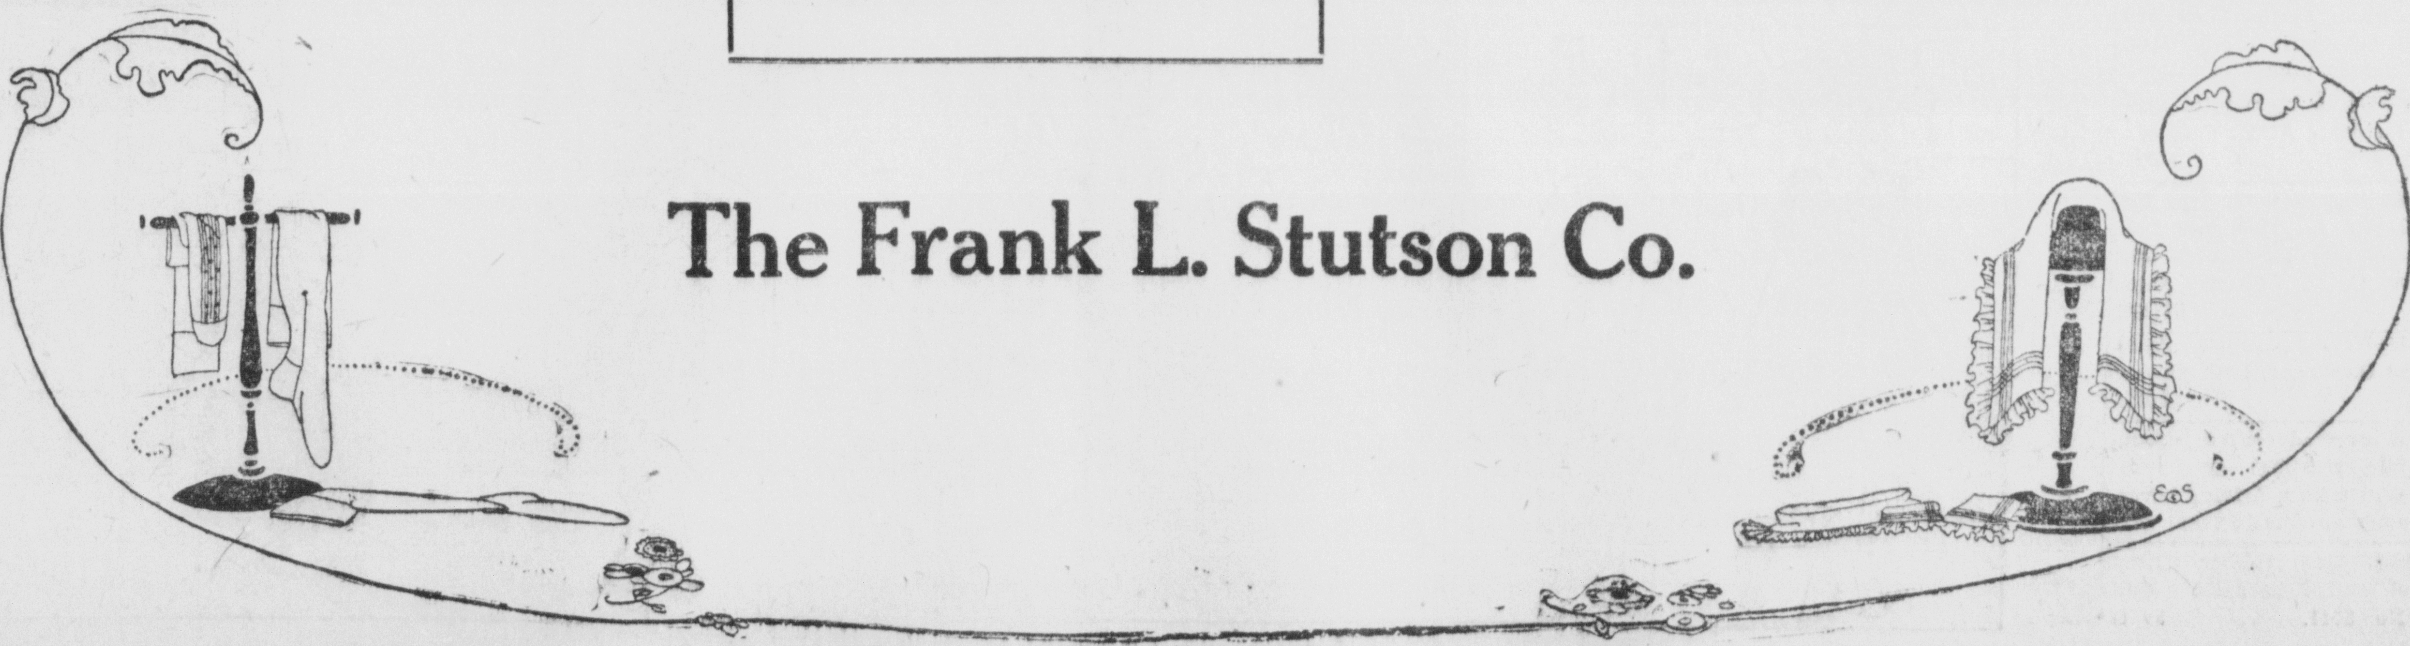

Color plays a very important part in the new waist styles. Beige and Navy Blue have a long following of admirers, but, to all indications, the hue called "Artillery Red" seems to lead in favor. Materials are of Taffeta, Georgette, Crepe de Chine, Cotton Voile, etc., adorned with square and round collars, bands, blithe-some little tucks and pleats. Why not come and view them!

### The New Spring Skirts

Simplicity is evident in every line of these new creations. They are fashioned, like the other garments, along slender, straight lines. This is true of all styles, those for dressy wear as well as those for street and sports wear. Materials are of serge, gabardine, satin, silk, linen, etc. Our showing of them now courts your attention.

ALLEGED HOG THIEF IS UNDER ARREST AFTER LONG CHASE

After many months as a fugitive from the law, Worley Crawford, residing in the Mt. Sterling neighborhood and wanted in this county for the theft of several hogs from the Mrs. Willis Jones farm near Bloomington, was placed under arrest in Columbus this week and was brought to this city on Wednesday.

It is alleged that Crawford, in company with a colored man who was inducted into the military service last year after confessing his part in their crimes, stole the hogs from the Jones farm nearly a year ago, and while an affidavit has been out for the man's arrest for a great many months, he could never be apprehended it seems, until this week.

The colored man was given his freedom by the local authorities when he turned states evidence, the only provision being attached to his freedom being that he enter the military service, which he did, and is supposed to still be in uniform.

FAYETTE MAN IS TAKEN IN CHARGE ON THEFT CHARGE

Clarence H. Hinkley, son of Wm. Hinkley, residing on the Ed Gerhart farm, Waterloo pike, was taken into custody by Deputy Sheriff Nelson on Tuesday morning, on a warrant issued in Scioto County and charging the young man with the theft of a motorcycle.

Hinkley and another man charged with stealing the motorcycle at Portsmouth and abandoning it near McDermitt, Ohio, when they were in imminent danger of being captured.

Hinkley declared that he was the innocent victim of being a party to the theft by not knowing that the motorcycle was stolen.

When the Sheriff arrived Tuesday evening to take his man back to Scioto county, he announced that the evidence against Hinkley was very strong, and discredited the story told by him.

Doesn't 7 percent, free from taxation in Ohio, sound good to you? One of the most successful business men in Fayette county, who holds large amounts of preferred stocks, said this week: "I regard tax-free 6 to 8 percent preferred stocks in good companies about the best investment a person can make, as you have something worthwhile left from your income at the end of the year."

If you have \$100 to \$10,000 that is showing you less than 7 percent net, see us and we will explain fully the merits of the above named stocks. Many are buying them.

Must be planted while the ground is still cold in order that rapid growth be made before the Hot Weather comes. Delay in ripening is often fatal, partly because of regularly recurring attacks of rust and partly because the foliage is not advanced enough to protect the tender roots from the burning sun.
